

Sree Lakshmi C M

MERN Stack Developer | React | Node.js | MongoDB

sreelakshcm@gmail.com | +91 9844078134 | Madipakkam, Chennai - 91 | LinkedIn | GitHub | Portfolio

Professional Summary

MERN Stack Developer with 2 years of experience building dynamic, scalable, and high-performance web applications. Proven expertise in React (JavaScript and TypeScript), Node.js, Express.js, and MongoDB to deliver seamless user experiences and robust backend solutions. Skilled in designing and developing end-to-end applications, optimizing performance, and implementing efficient RESTful APIs. Adept at collaborating with cross-functional teams, solving complex problems, and driving projects from concept to completion. Passionate about continuous learning and adapting to emerging technologies to deliver innovative and impactful solutions.

Skills

Frontend

React JS, TypeScript, React Redux, React Router Dom, SCSS, HTML / CSS

Backend

Node.js, Express.js

Database

MongoDB, MySQL, MsSql

UI Libraries / Frameworks

Antd, Material UI, Bootstrap, Tailwind CSS

Education

B.E.(Computer Science and Engineering)
Visvesvaraya Technological University
2018 | 64.58%

Higher Secondary (PUC)
Dept. Of Pre-University Education, Karnataka
2014 | 62.83%

SSLC
Karnataka Secondary Education Examination Board
2012 | 81.60%

Professional Experience

Maternity Break

January 2025 - Present

- Career break for maternity and childcare
Dedicated time to family responsibilities while maintaining awareness of industry trends and preparing for re-entry into the workforce.
- Continued skill enhancement and interview preparation
Actively revisiting core concepts in React, Node.js, and MongoDB, along with hands-on coding practice and project refinement.

Associate Software Engineer | Kaay Labs - Software Development

August 2023 - December 2024

- Led the design and implementation of workflows using Reactflow, increasing process efficiency by 30%
Built detailed flowcharts for workflows, mapped actions and responses, and integrated tasks such as email notifications and API calls.
- Built highly interactive web applications using React, TypeScript, and Vite
Enhanced performance and maintainability by leveraging TypeScript for type safety and Vite for faster builds.
- Developed robust RESTful APIs using Express.js
Handled server-side logic and API integration, reducing response time by 40%.
- Implemented MSSQL as the database solution, optimizing query performance by 50%
Designed efficient database schemas and optimized complex queries.
- Integrated frameworks and libraries including React Router, Redux Toolkit, Axios, and Ant Design (AntD)
Enhanced application state management, routing, and user experience.
- Collaborated with cross-functional teams to deliver high-impact solutions
Worked with designers, product managers, and QA teams to deliver projects on time.
- Led testing and debugging efforts, ensuring 99% bug-free releases
Automated tests and performed manual debugging for efficient issue resolution.

- Participated in code reviews and provided constructive feedback
Improved code quality and best practices by reviewing and mentoring peers.

Software Developer | Schwing Stetter India Pvt. LTD

February 2023 - August 2023

Production Management and Approval System

- Implemented secure authentication, reducing unauthorized access by 70%
Used token-based authentication, credential validation, and session management to enhance security.
- Developed a dynamic dashboard with interactive charts for real-time decision-making
Enabled users to filter data by date, month, and year, resulting in a 40% increase in data visibility.
- Designed master screens for plant-based recipe management, enhancing productivity by 30%
Built UI screens for recipe management with seamless server-side integration.
- Implemented a multi-tab approval screen, reducing processing time by 50%
Streamlined approval workflows with real-time editing capabilities.

Production Monitoring System

- Built a comprehensive ReactJS web application for production monitoring
Developed dashboards, reports, production modules, and configurators, boosting operational efficiency.
- Implemented data visualizations for actionable insights, increasing data accuracy by 30%
Integrated gauge charts, bar charts, and tables for data analysis.
- Enabled precise data exploration with datepickers
Added datepickers for month, year, and specific date selection, enhancing user control.
- Delivered plant-specific insights with dynamic data rendering
Provided tailored metrics and insights, supporting data-driven decision-making.

Certifications

- **Web Development with React JS.** – Credo Systemz (December 2022) – [View](#)
- **Node.js, Express, MongoDB & More: The Complete Bootcamp.** – Udemy (November 2024) – [View](#)

Personal Traits

- Showcasing the ability to quickly learn and adapt to new technologies and frameworks.
- Active team player, collaborating with team members to gather requirements, integrate UI/UX components for continuous improvement.
- Troubleshooting and resolving technical issues related to web applications, as well as implementing optimizations to enhance performance and user experience.

Personal Details

Date of Birth 28-11-1996	Gender Female	Marital status Married
Nationality Indian	Languages Known English, Kannada, Hindi, Tamil, Telugu	

Declaration

I hereby declare that the information provided above is true and accurate to the best of my knowledge and belief.
